
Analytical membership list of the 49 expert groups of DG Enterprise with non-government participation

Data retrieved in the Commission's expert groups register and other Commission websites in April 3, 2012

Note: In the Register, only representatives of ministries of the 27 members states are categorised as "national administrations". In our category "Government sector" we also include representatives of candidate countries and members of the European economic area's ministries, intergovernmental organisations including EU institutions, public agencies funded and appointed by governments and regional and local government. In the following annex, we list the names of Government sector entities only when they are not ministries of EU member states.

SECTION 1: Expert groups dominated by corporations and their lobby groups

Subgroups (5)

Note: DG ENTR has five subgroups in total, four of which function under the 'Raw Materials Supply Group'. The fifth one is under the 'Expert Group on Fire Related Issues'. Three subgroups are dominated by corporations, one by hybrid organisations and one by academia. We do not include them in the general counting but in case they wouldn't change the overall percentages too much.

► SUBGROUP 1: Ad hoc Working Group “Defining Critical Raw Materials”

Total members 31

Non-government 19
